

SHOW YOUR SUPPORT OF  
**FOCUS ON CORN**

## HELP US BUILD A NEW, CREDIBLE RESOURCE FOR THE CORN INDUSTRY...

The PLANT MANAGEMENT NETWORK (PMN), a not-for-profit publisher of agricultural and horticultural resources, has developed a prototype for *Focus on Corn*, a webcast training resource that will help growers and consultants develop healthy, high yielding crops. Upon publication, *Focus on Corn* will include...

- Six initial educational webcasts from expert presenters
- One monthly webcast developed thereafter
- One featured open-access webcast per month
- Ongoing access to our Partner Extension and Cross-Journal Search Engines
- Low-cost yearly access to all of PMN's resources

## HOW CAN YOU HELP?...

Pledge your financial support as a *Focus on Corn* sponsor. Visit [www.plantmanagementnetwork.org/foc](http://www.plantmanagementnetwork.org/foc) to view our prototype, access webcasts, and download your sponsorship form. Or contact one of the following individuals to learn how you can support the development of this important educational resource...

**Carl Bradley**, University of Illinois, 217-244-7415 or [carlbrad@illinois.edu](mailto:carlbrad@illinois.edu)

**Harold Reetz**, Reetz Agronomics, 217-762-2074 or [HaroldReetz@reetzagronomics.com](mailto:HaroldReetz@reetzagronomics.com)

**Phil Bogdan**, Plant Management Network, 651-994-3859 or [pbogdan@scisoc.org](mailto:pbogdan@scisoc.org)

## WHAT FOCUS ON CORN WILL OFFER...

### Webcasts:

PMN is one of the first publishers to produce audio-visual webcasts for training practitioners in crop production, protection, and management. These webcasts offer...

- Easy navigation
- On-demand access
- Expert speakers
- Science-backed information
- Personal contact with presenters

### Extension Information

#### Search:

The targeted Partner Extension Search resource in *Focus on Corn* allows users to find thousands of online fact sheets, booklets, and other resources from PMN's land-grant university partners and extension services. Users can search keywords by state or our entire collection of information.

### Other Agronomic Resources:

*Focus on Corn* offers six other resources that allow users to search for corn-related information, including pesticide efficacy trials, research articles, news, product and service information, journal abstracts, and images.
